Who is TiMi Studios? The developer behind Call of Duty: Mobile

Activision's Call of Duty Mobile, exceeded 100 million downloads within a month of launch, making it one of the largest smart phone game launches, according to Tencent's 2019 3Q Results which was announced on Nov 13. Developed by Tencent Games' award-winning TiMi Studios and published by Activision, Call of Duty: Mobile is behind only Pokémon Go in terms of first month downloads according to latest data from Sensor Tower, an encouraging progress of TiMi Studios' effort to bring AAA titles to smart devices.
